

**Student Voices :** In canva used repetition in my Canva design by using the same colors, fonts, and shapes again. and again. This helped my work look neat , organized, and connected.Repeating the layout and design elements madmy poster easy.

# Project Report and Skill Development

Canva club

Tajinder Kaur 5/1/26

**Project Goals:** The goal of this project is to help students learn how to use repetition in Canva. Students will repeat colors, fonts, shapes, and layouts to create neat and attractive designs.

**Process/ Steps:** First, students choose a theme and select a few colors and fonts in Canva. Then they use the same colors, fonts, shapes, and layout style throughout the design.

**Skills Learned :** Through this project, students learned design consistency by using repetition in Canva. They developed creativity, planning, and visual organization skills while selecting and repeating colors, fonts, and layouts.

**Challenges and solutions :**

Students faced difficulty in selecting suitable colors and fonts and keeping the same design style throughout. Some design looked confusing due to many changes.
