

AMRIT INDO CANADIAN ACADEMY
ASSIGNMENT II
CLASS VI

ENGLISH	M.M 50
----------------	---------------

Section A (Knowledge) 10m

1. Who do you think did Patrick's homework- the little man or Patrick himself? Give reasons for your answer. 3m
2. The little elf kept his word. But there was one glitch. What was it? 1m
3. How did Patrick get his wish granted by the elf? 1m
4. Why did the Dog serve the Lion for a long time? 2m
5. Read the following passage carefully and answers the questions given below:

DOGS were once their own masters and lived the way wolves do, in freedom, until a dog was born who was ill pleased with this way of life. He was sick and tired of wandering about by himself looking for food and being frightened of those who were stronger than he.

He thought it over and decided that the best thing for him to do was to become the servant of one who was stronger than anyone on earth, and he set out to find such a master.

Questions:

- a. What did the dog decide? 1m
- b. Name the lesson. 1m
- c. Use the phrase set out in a sentence of your own. 1m

Section B (understanding) 8m

6. Read the following passage carefully:

Trees are of importance not only to man but also to birds and animals. The branches of trees give shelter to millions of birds and forest give shelter to numerous wild animals. We value trees not only for their usefulness but also for their beauty. They have a way to refreshing the eye and also refreshing the mind. Perhaps that is why the rishies of olden days were drawn to the forests, and they and their peoples chose to going forest homes in company of Nature. In modern times when Rabindranath Tagore started a school, he too chose a place full of trees and called it Shanti Niketern or the home of peace.

Once upon a time large areas of India were covered with forests full of numerous kinds of trees. As the population grew, trees began to be cut down for mans use. That is how the wonderful forest described In our

ancient poems came to be destroyed, and a great part of our forest wealth was lost. Now we are trying to replace this loss, and our government wants trees to be planted all over the country. A new festival called ‘Van Mahotsava’ has been started for this purpose. Since trees are the country’s wealth we must consider it our sacred duty to protect them. We should plant new trees wherever we can and look after them well.

On the basis of the reading of the passage, answer the following questions in brief:

- i. How are trees important for birds and animals?
- ii. Why did the rishies in olden days make forests their homes?
- iii. Mention the reason that became the cause for the destruction of the wonderful forest.
- iv. How can we replace the loss of forests?
- v. What is meant by ‘Shanti Niketan’? Who started it?
- vi. Why is Van Mahotsava organised?
- vii. What message do we get from the above passage?
- viii. Give a suitable title for the above passage.

Section C (Application)

10m

cattle	ships	musicians	soldiers
dancers	sticks	fish	flowers
wolves	sheep	sailors	grapes

7. Each of the phrases given below contains a Collective Noun. Complete each phrase by putting in the missing word. Choose from the options below:

(10x1/2)=5m

- | | |
|-----------------------|------------------------|
| 1. A bunch of _____ | 2. A bundle of _____ |
| 3. A bouquet of _____ | 4. a herd of _____ |
| 5. a band of _____ | 6. a regiment of _____ |
| 7. a flock of _____ | 8. a troupe of _____ |
| 9. A crew of _____ | 10. a pack of _____ |

4m

12. Write an application to the Principal of your school to allow you to change your section.

4m

13. Analyse the given picture and give a detailed picture description in your own words.

4m

Maths assignment(Chapter-1)

M.M -50

Section-A(Knowledge)

Each question carry one mark.(1 to 5)

1. 1 metre is equal to how many millimetre
a)100 b)1000 c) 10000. d)1/1000
2. 7269 - - - - 7296 which of the following symbol will be used
a). >. b) <. c) =. d) >=
3. which of the following number is a smallest
a)1000892. b) 10000892. c)0100892. d)10100892
4. In the number 986574231, 6 presents the place value of.
a) lakh b)million c)ten lakh d)both b and c
- 5) In Roman numerals symbol L is used for which of the following number
a)10. b)500. c)50. d)1000
- 6)1 lakh= ----- ten thousand. (2)
- 7) write the number 18950049 in word form in international number system and insert commas.
(2)
- 8) 7, 2, 5, 1, 3, 9 using each of these digits only once form the greatest and the smallest number in both the numbers system, insert commas using international number system. (3)

section - B (understanding)

- 9) 15270037 write the place value of all digits in this number and insert commas and. write the number in word form. (3)
- 10). The town newspaper is published every day , one copy have 12 pages, everyday 11980 copies are printed. then every day how many total pages are printed? (3)
- 11). Estimate a)5290 + 17986
b)5673-436
c)898 × 785. (3)

Section -c (Application)

- 12) find the difference between the number 685 and the number obtained by reversing its digit.
(2)
- 13) Estimate 4876 to the hundreds place and 356 to its tens place and find the difference of both estimated number.(2)
- 14) write the following in Roman numerals. (2)

a)98. b). 1000

15) find the estimated product.

a)328×482

b)1005×998. (2)

16) To stitch a suit 5 metre 10 cm cloth is required ,so out of102 meter cloth how many shirts can be stitched. (3)

17)Length of a river is 1568 Kilometer what will be its length in centimetre and millimetre also find estimated length of river in centimetre and millimetre . (3)

Section-D (analysis)

18)As per the government record population of four states is given below arrange the states in ascending and descending order of their population (4)

Rajasthan.	--.	72995809
Punjab.	--.	616179291
Haryana.	--.	82998509
Himachal Pradesh-		96878627

19) India's population has been steadily increasing from 762 million in 1971 to 987 million in 2001.find the total increase in population from 1971 to 2007. write the increase of population in Indian number system and insert commas suitably . (4)

Section --E (create)

20) Make the greatest and the smallest 5 digit number using different digits in which 5 appears at tens place. (2)

21) Using the digits 8,3,7,2,5,4 form a number in which 7 take the place value of tens and 3 takes the place value of hundreds and 8 takes the place value of lakh. also write the estimation of that number.

(2)

22) A mobile number has 10 digits. Using the digits 0 ,1 ,2 ,3 ,4 ,5 ,6 ,7 ,8, 9 form a number so that the mobile number become the greatest number formed with these digits and what will happen if digits are reversed, also write the place value of each digit of mobile number in international number system.

(3)

links for notes of chapter starting from introduction to solutions of ex 1.3. are available in comments section of every video.

SECTION A- KNOWLEDGE (M.M - 16)

1. Define balanced diet. (2M)
2. Fill in the blanks (7M)
 - (a) _____ is caused by deficiency of Vitamin A.
 - (b) Deer eats only plant products and so, is called _____.
 - (c) Deficiency of _____ causes a disease known as beri-beri.
 - (d) Parts of mustard plant that are edible are _____ and _____.

Assignment M.M:50

Q1.Fill in the blanks.

(0.5 X 6=3)

1. Aero flip 3 Di feature enables you to _____ all open window as a stack
2. We can listen the song through _____ software
3. Window 10 operating system was released on _____
4. _____ language use Mein mnemonic code
4. _____ is the user friendly languagel.
6. the term software was first used by _____ n 1957

Q2.True/False

(0.5 X 5=2.5)

1. window 8.1 is the latest version of Windows.
- 2we cannot use our fingers to browse online, or flip or shuffle files and folder
3. fourth generation language is machine independent.
- 4.Each programming language has its own specific rule
5. Windows 7 allow the user to display two Windows side by side.

Q3: MCQ .

(0.5 X 5=2.5)

1. _____ program is used for the conversion from one language to another

I translator (II) object program (III) object code

2. Fortran language was designs for _____ uses

(I) Doctors (II) scientist (III) business

- 3 computer language is divided into _____ parts

(I). Two (II) four (III) six

4 _____ is the latest generation Technology for multimedia content

a.Equal to(=) b.MPEG c.MPEG-7

5. ripping refers to _____ songs from CD to a computer

a. receiving b. sending c copying

Q4. Answer the following.

(1 X 5 =5)

1. what is program
2. .What is a syntax?
3. Which was the first interaction computer game ?
4. Which is the latest version of Windows ?
5. Define accessories in in Windows

Q5. Answer the following question

(2 X 6=12)

1. What is the function of jump list ?

2. What is the shake function in Windows 7.?
3. .What is Window media player
4. Define LISP?
5. Write down three features of assembly language ?
6. Define the term programming ?

Q6: Answer the following question

(3 X 5=15)

1. Write down in brief about compiler and interpreter?
2. Write down the difference between computer language and human language ?

3. what is Windows RT ?

4. how can you display two window at a same time?

5. how can you use sound recorder option ?

Q7. Answer the following question. Attempt any 2 ? (2 X 5=10)

1. Which language is most often used nowadays and why?
2. Write down the steps to burn a CD?
3. Write at least 1 line for 5 new feature of Windows 7 ?
